2. GENERAL

- 2.1 TAB payouts for all bets on all races in South Africa are based solely on the official result declared following the National Horseracing Authority "All Clear" for a race. Any subsequent change to a result by the National Horseracing Authority, the body responsible for controlling horseracing, is for statistical and record purposes only and is disregarded in terms of TAB payouts. In a spirit of goodwill in selected instances, the operators may alter results and payouts to reflect a change to the original official result, in which case TAB will adjust account balances of TAB account holders to reflect the corrected result and dividends.
- 2.2 TAB follows the same policy for all races run outside South Africa's borders. If pools are commingled, TAB will follow the application of this rule as determined by the host operator.
- 2.3 In the event that a runner is scratched in error for a time by the host operator, and if a bet is taken during the time frame that the runner is scratched, thereby omitting the scratched runner, customers will be compensated by a refund, providing the scratched runner is part of the winning combination and the customer completes a claim form.
- 2.4 All multi-race betting pools will close at the start, or the scheduled start, of the First Leg/First Race in the pool, except if such race has been abandoned or that all choices (the field) will qualify, in which case pools will close at the start, or scheduled start, of the next leg/race.

3. EQUIPMENT FAILURE

- 3.1 In the event of breakdown or malfunction in any equipment, device or means of communication employed by the operators for processing bets, the operators may declare the tote favourite for the race (based on dividends at the time of such failure) and such dividend or refund as may be appropriate in the circumstances having regard to the information available. In the case of multi-race bets, the operators may also declare that all choices (the field) qualify in any affected leg/s.

The customer shall not have any claim of any nature against operators and/or any of their employees arising from a failure to accept bets because of delays caused by a breakdown in the telephone system and/or other telecommunication system for whatever reason.

- 3.2** Bets can only be accepted while the approved wagering system is operational.
- 3.3** Should the Pick 6 / Pick 4 commingled pools progressive scans from guest systems not be transmitted to the host operator, due to technical equipment failure, and thus preventing the host operator from declaring remaining tickets, will-pays or dividends, the host operator has the option to exclude the pool total from the guest system concerned, thereby decreasing the final pool total at the close of betting on the Pick 6 and/or Pick 4 pool
- 3.4** Should data communications be interrupted to the host operator, due to technical equipment failure or any other reason, the following will apply:
 - 3.4.1** Where a combination of local and commingled pools are offered on a race, host operator dividends and rules will be applied for the current race and thereafter all or selected commingled pools may be switched to SA pools, thereby declaring TAB results and dividends as well as applying TAB local rules
 - 3.4.2** Where only commingled pools are offered on a race, commingled pools will be refunded.

4. CARRYOVERS

- 4.1** TAB-hosted pool carryovers arising from all bet types on all South African and international race meetings are accumulated in a Carryover Stockpile and added to selected pools at the sole discretion of the operators, regardless of the bet type/s and race meeting/s from which such Carryovers originated.
