- 1.5 The operators reserve the right to vary carryover policy and in terms of this, may utilise a portion not exceeding 30% of the total Pick 6 carryover money stockpiled annually for carryovers to other bet-type pools.
- 1.6 Should incorrect results/dividends be declared for any event or race for whatever reason, TAB reserves the right to correct such incorrect results/dividends and to adjust account balances of TAB accountholders to reflect the correct result/dividends.

3. GENERAL

- 3.1 TAB payouts for all bets on all races in South Africa are based solely on the official result declared following the National Horseracing Authority "All Clear" for a race. Any subsequent change to a result by the National Horseracing Authority, the body responsible for controlling horseracing, is for statistical and record purposes only and is usually disregarded in terms of TAB pay outs.
- 3.2 TAB follows the same policy for all races run outside South Africa's borders. If pools are commingled, TAB will follow the application of this rule as determined by the host operator.
- 3.3 In the event that a runner is scratched in error for a time by the host operator, and if a "field" bet is taken during the time frame that the runner is scratched, thereby omitting the scratched runner, customers will be compensated by a refund, providing the scratched runner is part of the winning combination and the customer completes a claim form.

4. EQUIPMENT FAILURE

- 4.1 In the event of breakdown in any equipment, device or means of communication employed by the operator for processing bets, the operator may declare the favourite for the race (based on the dividends at the time of such failure) and such dividend or refund as may be appropriate in the circumstances having regard to the information available. The customer shall not have any claim of any nature against operator and/or any of its employees arising from a failure to accept bets because of delays caused by a breakdown in the telephone system and/or other telecommunication system for whatever reason.
- 4.2 Bets can only be accepted while the approved wagering system is operative.
- 4.3 Should Pick 6 or Pick 4 commingled pools progressive scans from guest systems not be transmitted to the host operator for whatever reason, thus preventing the host operator from declaring remaining tickets, will-pays or dividends, the host operator has the option to exclude the pool total from the guest system concerned, thereby decreasing the final pool total displayed at the close of betting on the Pick 6 and/or Pick 4 pool.
- 4.4 Should data communications be interrupted to the host operator, due to technical equipment failure or any other reason, the following will apply:
- 4.5 Where a combination of local and commingle pools are offered on a race, host operator dividends and rules will be applied for the current race and thereafter all commingled pools will be switched to SA pools, thereby declaring TAB results and dividends as well as applying TAB local rules.
- 4.6 Where only commingled pools are offered on a race, commingled pools will be refunded.

12.3.7 Calculation of Dividend:

The dividend shall be determined by dividing the net pool by the total number of unit bets on the winning combination/s.

12.3.8 Matches Abandoned/Not Completed:

Any match or horse race in a Soccer GG pool not completed by 9am on the day after the last day on which matches in the pool were scheduled, shall be deemed abandoned and all choices shall qualify. The times at which matches are completed will be as supplied by the operator's official source, notwithstanding the operator's decision in terms of when a match has not been completed shall be final and binding. The operator reserves the right to extend the time for a match to be completed provided this does not unduly hamper the declaration of results and dividends.

12.3.9 Refunds:

If all the matches, as designated in the TAB official fixtures list, are abandoned, all bets shall be refunded.

12.3.10 Carry Forward:

Should there be no winning tickets on a Soccer GG pool, the net pool shall be carried forward and added to a net soccer pool, selected at the sole discretion of Operator Management, provided that such carry forward is made within one month of the original pool or, in the case where it is the last event of a particular season, it shall be carried forward and added to a net soccer pool within one month of the commencement of the new season.
